Stupid Bite

let's see here ..

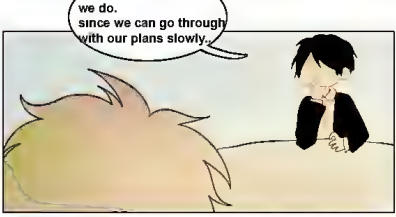
I read it, and basically..

they're trying to do some experiments and they want us to sponsor them.

ohh~ are they doing human experiments?

probably since they cost a lot to conduct.

hmm... what should we do. since we can go through with our plans slowly..



I think it'll be fun. So, why don't we try visiting?

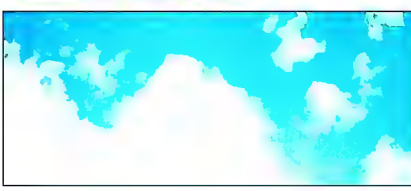
we might gain an underling or two there as well.

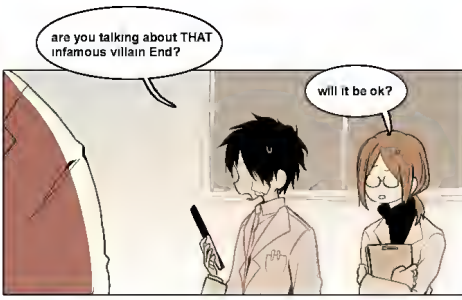
.....

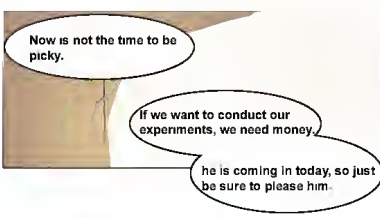
ah, right.
If we do gain an underling.
Can I kill them if they don't suite my tastes?

oh!
do as you like~
SFX. smiles

let's see~
What should I wear~?







Now is not the time to be picky.
If we want to conduct our experiments, we need money.
he is coming in today, so just be sure to please him.

THE Normally, I'm not even about this scene

Interestingly, these children were born with strange abilities
abilities?

yes, luckily we were able to come across them by -chance-

if we conduct experiments using these children, I'm sure the results will be extraordinary...

MOM! XOXO

후후-

he's being so informal.

* this is in regards to the Beijing Olympics Opening Ceremony. The Professor is using pathi- to mak speech, but Bird is not.

ummmm...

If we experiment on and modify those children...

of course, even if the experiment succeeds, they won't be able to live very long due to the side effects

we can amplify their current abilities

and with the perfected powers of those children, we can work towards world peace...

PFFFFT
